

Nelly Barret

Assistant professor in computer science

LIRIS · INSA Lyon

📍 Blaise Pascal building, 7 Avenue Jean Capelle, 69100 Villeurbanne, France

📞 Office 502.3.21 | ✉ nelly.barret@insa-lyon.fr | 🌐 <https://perso.liris.cnrs.fr/nbarret/> | 🆔 0000-0002-3469-4149

♥ Research interests

My research themes lie in the broad area of heterogeneous data integration and exploitation, including heterogeneous and multi-modal data as well as warehouse, data lake and lakehouse architectures.

The general scientific questions that are driving me every day include:

- How to effectively and efficiently collect, organize and store heterogeneous data produced by various actors?
- How to explore and exploit large amounts of data, especially for domain experts?
- How to clean, join, merge, and semantically enrich raw data for better decision making?

My research applies to various domains including sustainable cities, media, and healthcare, with a strong interest in sustainable cities.

🎒 Academic positions

Assistant Professor · INSA Lyon & LIRIS (FR)

Sep 2025 - now

- Research: part of the DRIM team, focusing on document engineering and distributed systems.
- Teaching: 1st and 2nd year courses at the engineer school INSA Lyon.

Postdoctoral researcher · Politecnico di Milano (IT)

Apr 2024 - Jul 2025

- Horizon Europe project: "Better real-world health-data distributed analytics research platform".
- Close collaborators: Pietro Pinoli (associate professor, Politecnico di Milano, IT), Anna Bernasconi (assistant professor, Politecnico di Milano, IT), Boris Bikbov (medical doctor, Politecnico di Milano, IT).

PhD student · Institut Polytechnique de Paris & Inria Saclay (FR)

Jan 2021 - Mar 2024

- PhD thesis title: "User-oriented exploration of semi-structured datasets".
- PhD defense jury: Fatiha Sais (présidente – professor, Univ. Paris-Saclay and LISN), Jean-Marc Petit (rapporteur – professor, INSA Lyon and LIRIS), Olivier Teste (rapporteur – professor, Univ. Toulouse Jean Jaurès and IRIT), Katja Hose (examinatrice – professor, TU Wien, AT), Stefano Ceri (examinateur – professor, Politecnico di Milano, IT), Fatemeh Nargesian (examinatrice – associate professor, Univ. Rochester, USA), Ioana Manolescu (advisor – research director, Ecole Polytechnique and Inria Saclay), Karen Bastien (co-advisor – WeDoData CEO).

Master intern · LIRIS (FR)

Feb 2020 - Jul 2020

- Master thesis title (in French): "Prédiction de l'environnement d'un quartier".
- Advisors: Fabien Duchateau (associate professor, Univ. Lyon 1 and LIRIS) and Franck Favetta (associate professor, Univ. de Lyon and LIRIS).
- Other collaborators: Nelly Duong (CEO, Home in Love), Behnaz Jullien (intern in psychology, Univ. Lyon 2), Wissame Laddada (post-doctoral researcher, LIRIS), and Ludovic Moncla (associate professor, computer science at INSA Lyon).

Bachelor intern · LIRIS (FR)

May 2018 - Jul 2018

- Bachelor thesis title (in French): "Intégration de données géographiques pour la recommandation de quartiers".
- Advisors: Fabien Duchateau (associate professor, Univ. Lyon 1 and LIRIS) and Franck Favetta (associate professor, Univ. de Lyon and LIRIS).
- Other collaborators: Nelly Duong (CEO, Home in Love), Loic Bonneval (associate professor in sociology, Univ. Lyon 2) and Aurélien Gentil (PhD student in sociology, Univ. Lyon 2).

Education

PhD degree · Institut Polytechnique de Paris
Track: Computer Science, Data and Artificial Intelligence

Jan 2021 - Mar 2024

Master's degree · Université Claude Bernard Lyon 1
Track: Computer Science, Artificial Intelligence

Sep 2018 - Jul 2020

Bachelor's degree · Université Claude Bernard Lyon 1
Track: Computer Science

Sep 2015 - Jul 2018

Research projects

MOBI4ALL: Towards intelligent systems for inclusive and privacy-respecting mobility for individuals with Autism Spectrum Disorder (ASD)

Oct 2026 - Oct 2030

Role: member (WP4) | *Grant:* ANR PRC (2026-2030)

EXPERT-MED-IA: Le confrère virtuel d'aide à la décision pour le soignant

Oct 2026 - Oct 2029

Role: member | *Grant:* AURA region (2026-2028)

BETTER: Real-world health-data distributed analytics research platform

Apr 2024 - Jul 2025

Role: contributor (tasks 4.1, 4.2) | *Grant:* Horizon Europe (2022 - 2027) | *Partners:* 7 European hospitals | *Website:* better-health-project.eu

- **Scientific outcomes:** Two conceptual models for data and metadata respectively, both general, able to represent various multi-modal healthcare data, allowing the usage of ontologies, and extensible to various healthcare scenarios; An ETL algorithm to fully automatically convert existing data and metadata to instances of our models, resulting in an interoperable database; A metadata and data catalogue for exploration and ease federated learning algorithm design.
- **Practical outcomes:** Each hospital has an interoperable database, part of the global BETTER network; Federated learning algorithms are co-created and implemented by researchers and practitioners; The catalogue implementation for the 3 use-cases (genetic rare diseases)

CONNECTIONSTUDIO: User data exploration of heterogeneous data

Mar 2023 - Mar 2024

Role: contributor | *Grant:* ANR SourcesSay project (2020 - 2024) | *Website:* connectionstudio.inria.fr

- **Scientific outcomes:** A user-oriented methodology for querying a relational data lake by selecting data pieces of interest instead of formulating SQL queries
- **Practical outcomes:** A software suite for the data exploration of the underlying data lake

PATHWAYS: Find interesting entity-to-entity paths in heterogeneous data

May 2022 - Mar 2024

Role: contributor | *Grant:* DIM RFSI PHD 2020-01 | *Website:* team.inria.fr/cedar/projects/pathways

- **Scientific outcomes:** Efficiently enumerate all paths connecting named entities appearing in multi-modal and heterogeneous data by relying on an intermediate summary graph and a view-based algorithm; The ranking of paths based on their interestingness, a quantitative measure based on entity confidence and information dilution
- **Practical outcomes:** A novel ChatGPT-based module for entity extraction; The efficient evaluation of paths by using a dedicated multi-query optimization algorithm

ABSTRA: Entity-Relationship summaries from semi-structured data

Jan 2021 - Mar 2024

Role: main contributor | *Grant:* DIM RFSI PHD 2020-01 | *Partners:* WeDoData start-up | *Website:* team.inria.fr/cedar/projects/abstra

- **Scientific outcomes:** A novel model-agnostic data summarization method relying on data kinds instead of specific model features; The selection of most representative entities, their attributes and relationships from the data summary by relying on a graph representation and PageRank node scores
- **Practical outcomes:** A end-to-end pipeline to summarize any (set of) heterogeneous datasets; An interface to visualize summaries as Entity-Relationship diagrams
- **Collaboration:** WeDoData is a French SME specializing in data journalism and data visualization.

PREDIHOOD: Supervised prediction of the environment of neighborhoods Feb 2020 - Jul 2020

Role: main contributor | Grant: LabEx IMU (Intelligences des Mondes Urbains) | Partners: HomelnLove start-up

- **Scientific outcomes:** An algorithm to automatically select the most useful subset of indicators among the hundreds collected ones; An algorithm to automatically predict in a supervised manner the environment of any French neighborhood based on several subsets of indicators
- **Practical outcomes:** Collect and process cartographic and urban data from public data such as INSEE; An interface for predicting the environment of any French neighborhood; A general interface for testing, evaluating and comparing AI algorithms
- **Collaboration:** HomelnLove is a French start-up helping people in case of professional mobilities to find a new place to live based on their criteria and needs (neighborhood, family, hobbies, ...).

GEOALIGN: Matching and merging geographic entities Mar 2019 - Jul 2019

Role: main contributor | Grant: Master 1 project

- **Scientific outcomes:** A customizable similarity formula for estimating the matching similarity between geographic entities; The computation of the estimated quality of the matching without ground truth
- **Practical outcomes:** A map interface for find, matching and merging similar geographic entities

VIZLIRIS: Recommending and clustering French neighborhoods May 2019 - Jun 2019

Role: main contributor | Grant: LabEx IMU (Intelligences des Mondes Urbains) | Partners: HomelnLove start-up |

Website: perso.liris.cnrs.fr/fabien.duchateau/?page=VizLIRIS/

FLAME: Federated LeArning in Multimodal Environments Jan 1970

Role: leader | Grant: ANR JCJC (2026-2030)

</> Research tools

I-ETL Apr 2024 - Jul 2025

Role: developer | Language: Python | LOC: 6k | Repository: github.com/DEIB-GECO/i-etl

PathWays May 2022 - Mar 2024

Role: main developer | Language: Java | LOC: 4k | Repository: gitlab.inria.fr/cedar/pathways

Abstra Jan 2021 - Mar 2024

Role: developer | Language: Java | LOC: 10k | Repository: gitlab.inria.fr/cedar/abstra

ConnectionStudio Mar 2023 - Mar 2024

Role: contributor | Language: Java and Javascript | LOC: 25k | Repository: gitlab.inria.fr/cedar/connection-studio

Predihood Feb 2020 - Jul 2020

Role: main developer | Language: Python and JavaScript | LOC: 3k | Repository: gitlab.com/fduchate/predihood

GeoAlign Jan 2019 - Jun 2019

Role: main developer | Language: PHP and JavaScript | LOC: 4k | Repository: private

VizLIRIS May 2018 - Jul 2018

Role: main developer | Language: Python and JavaScript | LOC: 1k | Repository: forge.univ-lyon1.fr/stage-Nelly/HiL-recommender

Awards

PhD thesis award · BDA conference

Oct 2024

Website: bda2024.sciencesconf.org/resource/page/id/10

- My PhD work won the 2nd prize for the PhD award delivered by the BDA conference, awarding one or two PhD with significant contributions in the French data management community.

Working groups

LIRIS commission on gender equality and parity · LIRIS

Nov 2025 - now

Role: member | Website: vargas-solar.com/aequitas

- The aim of this commission is to work towards building a more equitable scientific community by: (a) increasing knowledge about the scientific contributions of the female community by promoting the visibility of women at LIRIS, (b) increase communication in the lab to raise awareness on F/M equality questions, and (c) studying women's participation in the data science and artificial intelligence workforce.

FAIRification of genomic annotations

Dec 2024 - now

Role: member | Website: www.rd-alliance.org/groups/fairification-genomic-annotations-wg/activity/

- We aim at defining novel methods to make genomic annotations and data more interoperable. I co-lead two actions: (1) define a strategy to publicly and permanently store harmonized genomic metadata with Sveinung Gundersen (computer scientist, ELIXIR) and Evan Christensen (PhD in bio-informatics, Univ. d'Utah, CA); and (2) define new models for representing genomic annotations with Sveinung Gundersen and Adam Wright (researcher, Cancer institute of Ontario, USA).

Diversity, Equity and Inclusion

Apr 2023 - now

Role: member | Website: dbdni.github.io/

- I lead the SCOUT action which aims at facilitating DEI efforts in the database community. My main proposal is a checklist to easily comply with inclusive submission guidelines; it will be integrated into EasyChair and CMT.

Talks and Dissemination

Seminar

- [Multimodal data without borders: integration and exploration to the rescue](#). Oct 2025, IRIT, Toulouse (FR).
- [Leveraging profiling to bridge healthcare silos](#). Jun 2025, FIL, Lyon (FR).
- [Healthcare warehouses: from data integration to federated analyses](#). May 2025, MADICS, Toulouse (FR).
- [Integrating and exploring heterogeneous datasets](#). Apr 2024, POLIMI, Milan (IT).
- [Heterogeneous datasets: a tale of integration and exploration](#). Jan 2024, LIRIS, Lyon (FR).
- [User-oriented exploration of semi-structured datasets](#). Jan 2024, LIB, Dijon (FR).
- [User-oriented exploration of semi-structured datasets](#). Oct 2023, LISN, Paris (FR).

Panel

- Open debate on AI for/to teaching. Sep 2026, Lyon (FR).
- [When artificial intelligence inherits our biases](#). Oct 2025, Fete de la science, Lyon (FR).

Vulgarization

- [From data to journalism](#). Jan 2024, LIPPS, Palaiseau (FR).
- [Artificial intelligence: a tool for journalism](#). Jun 2023, CFI, Paris (FR).
- [ConnectionStudio : from data to journalism](#). May 2023, DATAJOURNOS, Paris (FR).
- [Research in data integration: the ConnectionLens project](#). Mar 2022, ECOLE POLYTECHNIQUE, Online.

Female empowerment

- Scientific women. Nov 2025, Lyon (FR).
- Girls, Mathematics, and Computer Science Day (RJMI). Nov 2025, Lyon (FR).
- [Girls in Computer Science and Engineering \(Girls@CSE\)](#). Sep 2024, POLIMI, Milan (IT).

Institutional responsibilities

DRIM team annual seminar

Sep 2026 - now

Role: Co-organizer

- Co-organize the DRIM team's annual 2-day seminar, which allows PhDs and young researchers to discuss their work with the team.

GRID500 platform LIRIS referent

Jan 2026 - now

Role: Main referent | Website: www.grid5000.fr/w/Grid5000:Home

- Manage LIRIS account requests on the national platform Grid'5000.

DRIM webpage maintainer

Sep 2025 - now

Role: Main maintainer | Website: liris.cnrs.fr/equipe/drim

- Manage the institutional webpage of the DRIM team at the LIRIS lab.

Data Science group LinkedIn page maintainer

Apr 2024 - Jul 2025

Role: Main maintainer | Website: linkedin.com/company/polimi-data-science-group

- Manage the LinkedIn page of the Data Science group at DEIB, Politecnico di Milano.

Inria PhD representative

Jan 2023 - Apr 2024

Role: Main representative within Ecole Polytechnique

- Represent Inria Saclay PhD students in Institut Polytechnique de Paris.

CEDAR team seminar organizer

Jan 2021 - Mar 2024

Role: main contributor | Website: team.inria.fr/cedar/category/seminar

- Organize and disseminate the CEDAR team seminars at Inria Saclay.

Internship application website

Jan 2021 - Dec 2021

Role: contributor | Website: stages.dix.polytechnique.fr/home

- Co-develop and deploy the website for internships at École Polytechnique, in collaboration with École Polytechnique IT team.

Teaching

Reccuring courses

- ISN1 - Informatique et Société Numérique 1 (37h, INSA Lyon, Engineer 1st year): algorithmic, Python development
- ISN2 - Informatique et Société Numérique 2 (35h, INSA Lyon, Engineer 1st year): algorithmic, functional decomposition, introduction to networks, recursion, guided hands-on project
- ISN4 - Informatique et Société Numérique 4 (24h, INSA Lyon, Engineer 2nd year): object-oriented programming, graphical interfaces, code versioning, hands-on project
- SOL - Systèmes et Outils Logiciels (15h, INSA Lyon, Engineer 1st year): Microsoft Office and LibreOffice suite, basic Linux commands

Guest lectures

- Introduction to data lakes (1h, INSA Lyon, Engineer 5th year): 45-minutes course on the data lake architecture
- Introduction to scientific research (8h, INSA Lyon, Engineer 4th and 5th year): 1-day seminar and workshops on academic research in France

Teaching service

- Industrial 1st year internship referee (INSA Lyon): 3-5 students each year
- First year admission interviews (INSA Lyon): recruitment session for high school students who will join INSA as engineers in the fall

Previous courses

- CSE203 - computer science project (24h, Ecole Polytechnique, Bachelor 2nd year): research-oriented computer science project
- CSE204 - Machine Learning (24h, Ecole Polytechnique, Bachelor 2nd year): main concepts, paradigms and algorithms in machine learning
- INF411 - bases de programmation et d'algorithmique (40h, Ecole Polytechnique, Engineer 2nd year): data structures (hash, trees, graphs), algorithmic, and an introduction to complexity
- INF371 - mécanismes de la programmation orientée objet (40h, Ecole Polytechnique, Engineer 1st year): OOP in Java

Student supervision

Engineer students

- Côme Perin on “Apprentissage multimodal au service de la santé des conducteurs” (summer 2026, ENTPE Vaulx-en-Velin)
- Ahmed Bel Hadj Youssef on “Building Persistent Episodic and Semantic Memory for LLM Agents via RAG-based Retrieval” (summer 2026, INSA Lyon)
- Lou Reina-Kuntziger on “MemeAltas: a framenet parser for memes” (summer 2026, INSA Lyon)
- Crisitan Vaireanu on “TODO” (summer 2026, INSA Lyon)
- Ahmed Bel Hadj Youssef on “Design and implementation of a data mesh architecture for domain-oriented document classification” (fall 2025, INSA Lyon)

Master students

- Inès Boudjeli on “Débruitage et sélection automatique de signaux cardiaques pour la prédiction médicale” (spring 2026, Université de Dijon)
- Antoine Gauquier on “Path exploration of ConnectionLens graphs” (summer 2022, IMT Nord-Europe)

Bachelor students

- Shay Pripstein on “Target data acquisition in open repositories” (winter 2023, École Polytechnique)
- Tudor Enache on “From simple to property graphs” (winter 2023, École Polytechnique)
- Nikola Dobricic on “Graph queries for abstractions” (summer 2023, École Polytechnique)
- Jia-Jean Law on “Optimization of entity-to-entity data paths” (winter 2022, Ecole Polytechnique)

Training

ACM Peer Reviewer Training (1 hour)

May 2026

Website: reviewers.acm.org/training-course

Peer-review overview; Assessing your suitability to review; Review touchstones; Evaluating the paper; Submitting your review; Artifact review and badging

Doctoral supervision (18 hours)

Apr 2026

Website: fedora.insa-lyon.fr/fr/page/seminaire-encadrants

The PhD journey as a system; Human and organizational factors for a successful PhD journey; Scientific co-production between the PhD student and the advisors; Understanding inter-culturality within the PhD eco-system; Evolution of the supervisor's role during a PhD and through a career

Student evaluation (4 hours)**Apr 2026**

How to evaluate students within the APC framework (Competency-based approach)?; How to evaluate students in the GenAI era?

Last update: September 2, 2026
